📍 Lliçà de Vall, Barcelona, Spain

ABOUT ME

I'm a Front-End Developer driven by ambition, challenges, and personal growth. My career as a Developer started with a Medium Degree in Systems and Networks, where I learned the basic skills of web development.

It inspired me to pursue a Higher Degree in Web Development, where I further built my skills and grew in the workforce.

I started in 2022 at a company, JAD, as an intern working as a Front-End Developer, improving my skills with Laravel, JavaScript, and AJAX. Nowadays, I'm working as a Web Developer, where I first started as an intern.

WORK EXPERIENCE

2022 - Now Frontend Developer

Front-End Developer working on several websites at JAD Solutions, developing, building the layout and maintaining the website.

2021 - 2022 Computer Technician

I completed a 350-hour internship at TKS Granollers, where I gained hands-on experience in computer repair and maintenance, computer assembly, and operating systems support.
